

## **Evaluation – Kortrijk, November 2015**

### **Students:**

Looking at the event evaluation form we can notice that children who took part in that event are very satisfied with most of the points. They are very satisfied with:

- the booking process and pre-event organisation;
- the organisation on the programme November 2015;
- the venues and facilities;
- the relevance of the topic areas;
- the presentations that were delivered at the venue;
- the access at the venue;
- the service provided by project staff and volunteers;
- the social programme;
- the visits to families, to Bruges and Ypres;
- the friendliness of pupils/staff from partner schools

The students in some cases were not quite satisfied with the accommodation at the hotel and the time keeping at the event.

They were satisfied with the event in general but some children state that they do not think their language skills have improved this week.

They claim that they have learnt about Belgium during the week and they would like to visit other partner schools.

### **Teachers**

The teachers are very satisfied with most of the points. Some of the teachers were not quite satisfied with the accommodation at the hotel and with refreshments and meals provided. Some state that they don't think their language skills have improved this week. All of the teachers enjoyed the visit and would like to go to other partner schools.

Other comments:

- The cooperation and the understanding between partners was very good and respectful;
- It was a nice and interesting week, partners were fantastic;
- It takes a lot of time to coordinate;
- The visitors are grateful for the hospitality and openness of the Belgian partners
